PROFESSIONAL EXPERIENCE

WordPress Developer - Intopros Technology

2.5+ Years | Nepal

- Developed, customized, and maintained WordPress websites across business, hostel, portfolio, consultancy, and e-commerce projects.
- Developed custom WordPress themes and plugins for project-specific requirements and extended existing plugin functionality.
- Built responsive interfaces from Figma/design concepts using WordPress, Elementor, PHP, HTML, CSS, and JavaScript.
- Developed WooCommerce customizations covering checkout, payment, delivery/shipping, orders, products, and categories.
- Implemented custom functionality using PHP hooks, filters, shortcodes, custom post types, custom fields, JavaScript, and REST APIs.
- Implemented technical SEO, XML sitemap configuration, Google Search Console setup, indexing troubleshooting, and Rank Math configuration.
- Configured and troubleshot SMTP and Google API-based email delivery; integrated third-party APIs and external data workflows.
- Optimized WordPress websites through caching, image optimization, CSS/JS optimization, database cleanup, and plugin/theme performance improvements.
- Handled WordPress troubleshooting, security issues, migrations, backups/restores, compatibility problems, and production maintenance.
- Used AI-assisted coding agents for development, debugging, refactoring, code exploration, and rapid prototyping, with review and testing of implementations.

SELECTED PROJECTS

Custom Hostel Theme - Custom WordPress theme with responsive layouts, reusable components, dynamic content, and project-specific functionality.

WooCommerce Delivery & Payment Plugin - Custom plugin extending WooCommerce delivery/payment behavior and project-specific checkout/order workflows.

University & Course Management Plugin - Custom consultancy plugin with multi-dependent filtering/sorting plus CSV-based university/course data import and processing.

Custom Portfolio Themes - Lightweight custom WordPress themes for personal portfolio websites with responsive layouts and reusable components.

Additional Projects - Multiple other WordPress themes, plugins, Elementor builds, WooCommerce sites, API integrations, SEO, optimization, and maintenance work.

EDUCATION

Bachelor's in Software Engineering - Pokhara University
